PROFILE

Graduated cum laude in Psychology (1992) at Roma University "Sapienza"; specialized cum laude in Clinical Psychology(1996), PhD in Clinical Psychology(2003).

Since 2003, I have been a staff member of the Faculty of Psychology at "Sapienza" university, currently as professor of Clinical Psychology, teaching "Assessment and Interventions in Clinical Psychology" and "Planning and evaluation of interventions in clinical psychology". I have been the director of the post-graduate course: Clinical Psychology for the Person, the Organizations and the Community since 2007 to 2015.

I am the scientific head of several international projects aimed at supporting the quality of inclusive processes in foreign countries, namely Serbia, Macedonia, Mozambique. Head of the Italian unity of a bilateral project Germany – Italy on inclusion of migration flows. Currently I am component of the international project AguaFutura, granted by MAE, taking place in Central America.

I am one of the experts of MAE (Italian Ministry for Foreign Affairs) in inclusive education, as well as member of the board of the DGCS on inclusive education.

In 2015, I was visiting professor at the University Sv. Kiril I Metodij, Skopje, Macedonia. In 2018, I was visiting professor in Hochschule Darmstadt, Germany.

My research activities are focused on several topics: qualitative and quantitative analysis of inclusive processes in Italy and abroad; migration flows and their impact on local culture, gender-based violence; the unconscious of territories and communities; and methodologies of evaluation of psychological clinical intervention.

Italian being my mother tongue, I fluently speak English and Serbian.

I was an elected member of the Regional Council of Psychologists and have been since February 2014 until December 2019

In 2018 I obtained the national habilitation as a full professor in clinical and dynamic psychology.
